

I have been part of the Dragons team since we opened in January 2003. Along with Nicola, I care for the 'Blue' key group. We hope to make secure attachments to the children in our key group and build strong relationships with parents and carers. My roles within the setting include Deputy Manager and SENCO (special needs co-ordinator). I have recently completed a BA Degree which has made me re-evaluate the importance of my role as key person in maintaining children's emotional wellbeing and development.
