

Seasons and Weather

What will we be learning?

- ⇒ How the weather changes throughout the seasons.
- ⇒ The months of the year and what season they are in.
- ⇒ How we can prepare for different seasons.
- ⇒ Symbols on weather report.

How the Weather Affects Us

The weather **affects** what we do and what we wear. If it is rainy, we wear **waterproof** clothes when we go outside.

If it is hot, we need to wear sun cream and a sun hat.

What we should know already:

- ⇒ The names of the months of the year.
- ⇒ We should be able to describe some familiar weather.

Seasonal Changes

There are changes in weather in each **season**. In spring, it is often rainy and the **temperature** begins to get warmer.

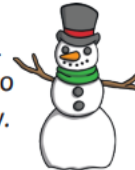

In summer, the sun is much stronger. The **temperature** is warmer than in any other **season**.

In the autumn, the weather turns chillier, windier and there is often rain.

In the winter, it is often cold and frosty. It has to be freezing cold to snow.

Glossary

Seasons	The year is divided into four seasons: spring, summer, autumn and winter.
Weather forecast	A prediction of what the weather will be like in the future.
Symbols	Pictures or signs that help us understand something.
Temperature	A measure of how hot or cold something is.
Observations	What you notice when you look carefully at something.

Our Weather

In a weather forecast, **symbols** are used to show what the weather will be like in a particular area. People check the weather forecast before they make plans for a day out. Computers are used to help make accurate weather forecasts.

Weather Dangers

People need to take special care in **extreme** weather such as: **droughts**, **flooding**, **blizzards**, **heatwaves** and **hurricanes**. **Extreme** weather can **affect** our surroundings as well as us.
